ELECTRIC CHAIR SNUFFS OUT LIVES OF TWO

NIGHT**

**SHE AND GRAY HAD SLAIN HER
HUSBAND, ALBERT SNYDER,

By LOUIS F. KEEMLE
(United Press Staff Correspondent)
Sing Sing Prison, Ossining, N. Y., Jan. 13.—Ruth Snyder and Henry Judd Gray, lovers and murderers, have paid the penalty for their love and murder, in the same electric chair.

They went to death between 11 and 11:14 o'clock last night without a sign of fear and praying to God for mercy.

The first woman to die in this state in 19 years, and one of the handful ever to suffer capital punishment in this country, met death with calmness and resignation.

She and Gray, who had been illicit lovers, were put to death for killing her husband, Albert Snyder, in Queens Village, New York, last March. They chloroformed him, beat him to death with a sash-weight and strangled him with wire.

Their lives were forfeited to the state in a little, high-ceilinged room about 40 feet long and 20 wide, in which a group of 40 persons, including two women had gathered.

"Forgive me, Father, for all my sins," Mrs. Snyder said in a low, thin little voice just before 2,200 volts of electricity were shot into her body. Then she whimpered and sobbed ever so faintly.

In the solemn strained stillness of the execution chamber it was plainly audible and it sounded like a little child about to be punished. Then the current was turned on. She never moved again.

The witnesses were ushered in single file through the door of the death chamber a minute or two before eleven o'clock. All the others were in their places. No one spoke. There was a shuffling as the witnesses took their places.

With abrupt suddenness, the door to the prison swung back and Ruth Snyder came in. It was 11 o'clock.

A matron was on either side and the Rev. John P. McCaffrey, Catholic chaplain of the prison, walked in front, holding a crucifix before her eyes and praying in low-voiced Latin. A guard was well in the rear.

Mrs. Snyder walked slowly and steadily. Her eyes were straight ahead and apparently were taking in the figure of the cross. She advanced to the chair, guided by the matrons, who then stood in front of her, as though shielding her from view. She was assisted into the chair.

Mrs. Snyder, her faded blonde hair hanging straight in a sort of Buster Brown bob, was dressed in a short, dark skirt of cheap prison material and a light green smock. She wore slippers. One of her white stockings was rolled half way down the calf.

As she sat in the chair, the guards closed in and moved swiftly. Two knelt and fastened her ankles to the short straps in front of the chair. The electrode was attached to her bare right leg. A strap went around her waist and another across her chest, pinning her in. The death cap, a regulation black leather football-like helmet with an electrode in the crown to meet the bare spot clipped on top of her head, was fastened in place.

The death mask, a double affair that covers the eyes and mouth, with only a strip across the nose bare, was adjusted and the guards stepped back. The matrons, Mrs. Mary Manny and Mrs. Lillian Hickey stood off to one side.

Until she sat in the chair, Mrs. Snyder had made no sound.

As she sat down, she suddenly began to speak. Her voice, low and with that note of a frightened child in it, shattered the stillness.

"Forgive them, Father, they know not what they do."

DAY FRIDAY, 13TH**

Chicago, Jan. 14.—(U.P.)—Police were summoned today—Friday the thirteenth—to a rooming house where the landlady reported one of the guests was locked in his room and did not respond to knocks. She knew him only as Mr. She feared foul play.

Police broke down the door. They found Mr. F. sound asleep.

"I always sleep through a day like this," he explained, "my name is Friday and I have 12 older brothers and sisters."

Flint, Mich., Jan. 13.—(U.P.)—The slayer of 6-year-old Dorothy Schneider, whose mutilated body was found last night after she had been kidnaped near her school, was hunted today throughout the middle west.

The description of a 50-year-old man, suspected of the crime, was broadcast by radio, while state police converged on Flint from all parts of the state, hoping to catch the murderer before he could leave the county.

Dorothy was lured into the man's automobile shortly after noon yesterday. She was not seen again until a posse, headed by her father, discovered her dismembered body.

The mask was muffled the sound. "Forgive me, Father, for all my sins."

It struck listeners that was what she had been trying to say in the first place but her frightened, dazed mind had repeated the more familiar quotation.

Then the executioner in the alcove threw down a switch, hard.

The figure in the chair, that had been limp, threw itself forward against the restraining bonds, stiffened and stayed that way. It never moved voluntarily again.

Silence endured for three minutes. The only sound was the heavy breathing of a stout witness. At 11:05 the current was shut off and the body slumped down in the chair.

In another minute the group stepped forward. The front of Mrs. Snyder's smock was laid back and Dr. C. C. Sweet, prison physician, and one of his assistants, applied their stethoscope.

Dr. Sweet faced the witnesses and said:

"I pronounce this woman dead."

That was at 11:07.

The guards stepped up, unbuckled the straps, and two white-robed doctors lifted the limp body and placed it on a hospital table standing ready.

It was wheeled past the witnesses. At 11:07 1/2 the door of the autopsy room closed behind Ruth Snyder.

There was only a momentary pause. A reporter tore a sheet off his notebook with a disturbing sound.

The prison door opened again.

Judd Gray, escorted by the principal keeper, John L. Sheehy, and the Protestant chaplain, the Rev. Anthony Peterson, entered.

Peterson was reading aloud from a prayer book.

**ONE MINER, KLEMENTO CHAVEZ,
A MEXICAN, WAS
KILLED**

Walsenburg, Colo., Jan. 13.—(U.P.)—While both sides denied starting the shooting, authorities today attempted to fix responsibility for the gun battle between striking coal miners and state police here yesterday.

One miner, Klemento Chavez, a Mexican, was killed. Two others, Salestino Martinez and Pete Verlich were wounded. State Police-man Max Lordeman was shot in the leg.

According to the police, the battle started when they attempted to disperse a strikers' parade. Martinez, a 16-year-old boy, fired at them, they said. In the return fire Martinez dropped with a bullet in the abdomen.

After this exchange, the officers said, the miners sniped at them from downtown buildings. A few minutes later Chavez was shot from a window of the I. W. W. hall.

Police said he had leaned out to shoot at them and was shot before he could get his gun in action.

However, authorities of the I. W. W., sponsoring the strike, said no shots were fired from the hall and that Chavez was killed when he attempted to slip out of the building by a rear window.

After the Chavez incident, police rushed a machine gun, mounted on a fire truck, to the hall and order was restored.

"Blessed are the meek—"

He was in a gray sack suit of cheap prison material, with a white shirt, collar attached, and necktie. A handkerchief peeked absurdly from his breast pocket, over his heart.

"Blessed are the merciful for they shall obtain mercy," Gray repeated. His back was to the chair and he sat down. It was 11:09.

Gray was strapped in. He had no strap across his waist, only one over the chest. Until the mask covered his face, his lips moved in inaudible prayer.

He did not appear like a murderer. His attractive face had a helpless kind of dignity about it.

At 11:10 the current was turned on. Gray shot forward just as Mrs. Snyder had done and remained fixed. The left hand curled slightly upward. The right was palm down. Not even a finger twitched.

Forty pairs of eyes watched the still figure for two minutes. At 11:12, the reality of the execution came home when a wisp of smoke spiraled up from the right temple. The current was reduced to avoid burning the body and the smoke vanished as suddenly as it had come.

At 11:13 another little burst of smoke coiled up. The hand of the executioner, Robert Elliott, moved and the current was shut off.

The doctors moved to the body, unbuttoned the shirt and under-shirt, and applied their stethoscopes.

"I pronounce this man dead," Dr. Sweet announced at 11:14.

Half a minute later, the body was wheeled through the autopsy room.

St. Paul, Jan. 13.—(U.P.)—Motor vehicle tax payments for 1927 totaled \$10,192,019.40, a new record amount, Mike Holm, secretary of state, announced.

This sum is \$253,407.35 more than was paid in 1926. Licenses were issued for 654,350 motor vehicles, 16,659 more than in 1926.

**EARLE NELSON,
STRANGLER KILLER,
HANGED IN CANADA**

**EXECUTION IN COURTYARD OF
PROVINCIAL JAIL AT
WINNIPEG**

**PAYS PENALTY FOR KILLING
MRS EMILY PAT-
TERSON**

Winnipeg, Man., Jan. 13.—(U.P.)—With a wistful smile on his lips, Earle Nelson, of San Francisco, convicted murderer of a Winnipeg woman, and suspected slayer of a score or more of women and girls in the United States and Canada was hanged in the jail yard here today, the thirteenth victim of the noose in Manitoba.

Nelson walked up thirteen steps to his doom.

The trap was sprung at 7:41 o'clock. Eleven minutes later a doctor pronounced Nelson dead.

Preparations were started immediately for the return of his body to San Francisco.

The studied calm and iron nerve which characterized his demeanor during the trial in which he was convicted for the murder of Mrs. Emily Patterson did not fail Nelson as he met his doom.

Nelson was dressed in a shirt open at the neck, dark trousers and tan shoes and stockings. His hair was uncombed and he was unshaven.

As he stood on the trap door with his head thrown back in bold relief against a leaden sky and his whole body tensed with strain, Nelson made a brief statement denying all guilt of the crimes with which he was branded.

"I declare my innocence before God and man," he said in a clear strong voice. "I forgive those who have injured me, and I ask pardon of those I have injured. May the Lord have mercy on my soul."

As the words rang out in the stillness of the dimly-lighted jail yard and almost before anyone realized that the end had come, Dominion Hangman Arthur Ellis pulled the lever, and Nelson dropped with a crash.

For eleven minutes the jail doctor felt Nelson's pulse. At 7:52 Nelson was pronounced dead.

University students were barred from portions of the University of Manitoba which overlooks the jail yard and were unable to witness the execution.

Outside the jailyard a solemn crowd awaited the news of the end. They stood in little groups on Vaughn street and University Place.

Nelson smiled when he was informed by Rev. Father J. A. Webb, a Roman Catholic priest that the hour for his execution had come.

The doomed man swiftly followed instructions of guards and Hangman Ellis as his wrists were strapped together behind his back.

The march to the scaffold was rapid. Entering the jailyard through a huge iron-barred door, Nelson wavered for a brief moment at the sight of the scaffold towering massively in the murky morning light.

Hurriedly regaining his composure, the doomed man walked forward toward the trap. The priest

TWIN CITIES**

St. Paul, Jan. 13.—(U.P.)—Proceedings to padlock 250 hotels, apartments, soft drink bars and private dwellings in the district are being prepared today, it was announced by the northwest prohibition force here.

The affected places will be charged with violation of the federal liquor laws, S. B. Qvale, northwest prohibition enforcement chief, said. Qvale announced that approximately 220 of the places against which action will be taken are in the Twin Cities. Eighty-nine of the complaints will be ready for filing Saturday, he said.

The complaints in the padlock suits are being prepared in the office of the U. S. district attorney here by J. H. S. Gifford, who is co-operating with the legal department of the northwest prohibition force. Qvale declined to name those who will be affected by the proceedings but intimated that several large hotels will be included.

continued to pray. Nelson remained silent.

A group of 35 persons, including witnesses, doctors, and newspapermen were standing, bare-headed at the base of the structure. Nelson, slightly ahead of the two guards who walked on either side of him, marched, with a steady tread, to the platform. He took his position almost immediately upon the door which a moment later was to open and drop him to eternity.

Asked if he had anything to say, Nelson made his last statement.

"I've finished," he said at the conclusion of his remarks.

The hood was hurriedly adjusted, and the trap sprung.

**CHICAGO WOMAN HAD BEEN
BEATEN ON HEAD, CORD
AROUND NECK**

Chicago, Jan. 13.—(U.P.)—Two men were sought today for the murder of Mrs. Betty Chambers, who was found smothered to death, surrounded by thousands of dollars worth of pretty gowns, riding habits and lingerie in her apartment.

She had been beaten on the head. A cord torn from an electric lamp was tied around her neck. And then the murderer had wound nine yards of adhesive tape around her mouth and nose.

Doctors believed she lived for several hours, eventually smothering to death.

Police seek Gordon Chambers, her husband, as an accessory. They do not believe he committed the crime but think a "lithe, dark man, with a hook nose," is the actual murderer, though they believe that Chambers knew of it.

A letter, thought to be in the handwriting of the dead woman, found in the room, began "Death Gordie—Revenge is the sweetest thing I know of—" and there it stopped.

Mrs. Chambers, police said, ran away from her home in Detroit ten years ago, when she was 15. The officers said her family has had nothing to do with her since that time.

Police believe the "revenge" in Mrs. Chambers' note indicates she might have been planning to expose the alleged liquor business of Chambers and that a gang may have found it necessary to forever silence her.

**TWO IMPORTANT BRANCH LINE
PROJECTS TO BE COM-
PLETED**

**CHARLES DONNELLY, PRESIDENT
DENT OF RAILWAY, MAKES
ANNOUNCEMENT**

St. Paul, Minn., Jan. 13.—The Northern Pacific Railway Company in 1928 will expend more than \$44,500,000 for maintenance, roadway, and building improvements, and completion of two important branch line projects, Charles Donnelly, president, announced today.

This sum will be expended as follows:

On roadway and building maintenance—\$13,000,000.

On equipment maintenance—\$17,500,000.

On roadway and building improvements—\$10,000,000.

On new branch line completion—\$2,800,000.

On work carried over from 1927—\$1,200,000.

The roadway improvement figure includes \$1,500,000 for new ballast. The railway company four years ago outlined a washed ballast program for the system.

In 1927, 253 miles of ballast were laid, and in 1928 the program calls for 320 miles. Of this 320 miles, 186 miles will be washed ballast. By the end of 1928 there will be on the Northern Pacific system 925 miles of washed ballast, making that portion of the roadway virtually dustless and giving improved riding qualities.

Another important item in the \$10,000,000 roadway and building improvement program will be the laying of new 100 and 130-pound rails on the main line. In 1927, 63.4 miles of this heavier track was laid, while in 1928 the program calls for 125 miles at a cost of \$2,700,000. At the end of 1927 there were on the system 717 miles of this heavier rail and at the end of 1928 this total will be increased to 842 miles, all laid within the last five years.

The railway company will also spend \$300,000 for improvements to its telegraph and telephone lines; \$1,000,000 for grade separations at various points on the system; \$400,000 for freight and passenger buildings and improvements; \$808,000 for improvements to equipment; \$650,000 for bridges; and \$100,000 as the year's proportion of the expense of new water treating systems.

The Northern Pacific in 1927 began construction of two important new branch lines. One of the lines is known as the Redwater branch extending from a point near Glendive, Mont., to Brockway, via Circle, a distance of 62 miles. This line is to tap a large, fertile grain area in eastern Montana. Part of this line now is complete and some grain has been hauled over it. Heavy shovel work is being carried on this winter by a large crew of men. The entire line will be finished in the early summer.

The railway also is relocating 25 miles of its pioneer Bitter Root branch south of Missoula, Mont. Grading is well advanced on this project, the rail will be laid in the spring, and the line will be operating in early summer. The purpose of this relocation is to better serve the farmers in the fertile Bitter Root Valley. In connection with the relocation of this line, announcement was made that a large beet sugar factory is to be constructed at Missoula and a considerable acreage of sugar beets will be available on the relocated line.

It is estimated that the cost of completing the Bitter Root and Redwater lines is about \$2,800,000.

A new line from Orofino to Headquarters, Idaho, a distance of 40 miles, has been completed at a cost of \$4,000,000. This line was built to tap what is called the largest remaining stand of virgin white pine and its construction was regarded

MOTOR VEHICLE TAXES IN 1927 \$10,192,019.40

St. Paul, Jan. 13.—(U.P.)—Motor vehicle tax payments for 1927 totaled \$10,192,019.40, a new record amount, Mike Holm, secretary of state, announced.

This sum is \$253,407.35 more than was paid in 1926. Licenses were issued for 654,350 motor vehicles, 16,659 more than in 1926.

EARLE NELSON, STRANGLER KILLER, HANGED IN CANADA

EXECUTION IN COURTYARD OF
PROVINCIAL JAIL AT
WINNIPEG

PAYS PENALTY FOR KILLING
MRS EMILY PAT-
TERSON

Winnipeg, Man., Jan. 13.—(U.P.)—With a wistful smile on his lips, Earle Nelson, of San Francisco, convicted murderer of a Winnipeg woman, and suspected slayer of a score or more of women and girls in the United States and Canada was hanged in the jail yard here today, the thirteenth victim of the noose in Manitoba.

Nelson walked up thirteen steps to his doom.

The trap was sprung at 7:41 o'clock. Eleven minutes later a doctor pronounced Nelson dead.

Preparations were started immediately for the return of his body to San Francisco.

The studied calm and iron nerve which characterized his demeanor during the trial in which he was convicted for the murder of Mrs. Emily Patterson did not fail Nelson as he met his doom.

Nelson was dressed in a shirt open at the neck, dark trousers and tan shoes and stockings. His hair was uncombed and he was unshaven.

As he stood on the trap door with his head thrown back in bold relief against a leaden sky and his whole body tensed with strain, Nelson made a brief statement denying all guilt of the crimes with which he was branded.

"I declare my innocence before God and man," he said in a clear strong voice. "I forgive those who have injured me, and I ask pardon of those I have injured. May the Lord have mercy on my soul."

As the words rang out in the stillness of the dimly-lighted jail yard and almost before anyone realized that the end had come, Dominio Hangman Arthur Ellis pulled the lever, and Nelson dropped with a crash.

For eleven minutes the jail doctor felt Nelson's pulse. At 7:52 Nelson was pronounced dead.

University students were barred from portions of the University of Manitoba which overlooks the jail yard and were unable to witness the execution.

Outside the jailyard a solemn crowd awaited the news of the end. They stood in little groups on Vaughn street and University Place.

Nelson smiled when he was informed by Rev. Father J. A. Webb, a Roman Catholic priest that at the hour of his execution had come.

The doomed man swiftly followed instructions of guards and Hangman Ellis as his wrists were strapped together behind his back.

The march to the scaffold was rapid. Entering the jailyard through a huge iron-barred door, Nelson hovered for a brief moment at the sight of the scaffold towering massively in the murky morning light.

Hurriedly regaining his composure, the doomed man walked forward toward the trap. The priest

NORTHWEST PROHIBITION FORCE ACTIVE

AFFECTED PLACES CHARGED
WITH VIOLATION OF PROHIBITION LAW

220 PLACES REPORTED BY S. B. QVALE TO BE IN THE
TWIN CITIES

St. Paul, Jan. 13.—(U.P.)—Proceedings to padlock 250 hotels, apartments, soft drink bars and private dwellings in the district are being prepared today, it was announced by the northwest prohibition force here.

The affected places will be charged with violation of the federal liquor laws, S. B. Qvale, northwest prohibition enforcement chief, said.

Qvale announced that approximately 220 of the places against which action will be taken are in the Twin Cities. Eighty-nine of the complaints will be ready for filing Saturday, he said.

The complaints in the padlock suits are being prepared in the office of the U. S. district attorney here by J. H. S. Gifford, who is co-operating with the legal department of the northwest prohibition force.

Qvale declined to name those who will be affected by the proceedings but intimated that several large hotels will be included.

INTERIOR DEPARTMENT APPROPRIATION BILL

Washington, Jan. 13.—(U.P.)—The house late today passed the interior department appropriation bill, carrying approximately \$272,500,000 for pensions, reclamation, Indian affairs, national parks and other departmental agencies.

All items for reclamation projects and practically all other items were passed as recommended by the appropriations committee.

TWO BANDITS HOLD UP THREE MILL CITY GIRLS AND GET \$5

Minneapolis, Jan. 13.—(U.P.)—Two young bandits obtained \$5 in the holdup early today of three Minneapolis girls, Hulda and Anna Olson and Hazel Peterson. They were on their way home from a friend's home when the bandits robbed them.

WORKMAN KILLED AND 6 KILLED IN DYNAMITE BLAST

New York, Jan. 13.—(U.P.)—One workman was killed and six were seriously injured this afternoon when a charge of dynamite exploded in the underground shaft of a subway under construction.

The accident was between second and third avenues, near 53rd street in a tunnel.

continued to pray. Nelson remained silent.

A group of 35 persons, including witnesses, doctors, and newspapermen were standing, bare-headed at the base of the structure. Nelson, slightly ahead of the two guards who walked on either side of him, marched, with a steady tread, to the platform. He took his position almost immediately upon the door which a moment later was to open and drop him to eternity.

Asked if he had anything to say, Nelson made his last statement.

"I've finished," he said at the conclusion of his remarks.

The hood was hurriedly adjusted, and the trap sprung.

RAIN DELAYS TRY AT ENDURANCE FLIGHT RECORD

San Francisco, Jan. 13.—(U.P.)—Rain and a soggy runway today caused another postponement of the take-off of the monoplane Southern Cross on an attempt to break the world's endurance flight record.

Captain Charles Kingsford-Smith and Lieut. George Pond, co-pilots of the Fokker monoplane, announced they would take off "as soon as weather permitted."

2 MEN SOUGHT FOR MURDER OF BETTY CHAMBERS

LATTER FOUND SMOTHERED TO
DEATH, SURROUNDED BY
LINGERIE, ETC.

CHICAGO WOMAN HAD BEEN
BEATEN ON HEAD, CORD
AROUND NECK

Chicago, Jan. 13.—(U.P.)—Two men were sought today for the murder of Mrs. Betty Chambers, who was found smothered to death, surrounded by thousands of dollars worth of pretty gowns, riding habits and lingerie in her apartment.

She had been beaten on the head. A cord torn from an electric lamp was tied around her neck. And then the murderer had wound nine yards of adhesive tape around her mouth and nose.

Doctors believed she lived for several hours, eventually smothering to death.

Police seek Gordon Chambers, her husband, as an accessory. They do not believe he committed the crime but think a "lithic, dark man, with a hook nose," is the actual murderer, though they believe that Chambers knew of it.

A letter, thought to be in the handwriting of the dead woman, found in the room, began "Death Gordie—Revenge is the sweetest thing I know of—" and there it stopped.

Mrs. Chambers, police said, ran away from her home in Detroit ten years ago, when she was 15. The officers said her family has had nothing to do with her since that time.

Police believe the "revenge" in Mrs. Chambers' note indicates she might have been planning to expose the alleged liquor business of Chambers and that a gang may have found it necessary to forever silence her.

REPUBLICAN STATE CENTRAL COMMITTEE

St. Paul, Jan. 13.—(U.P.)—Members of the republican state central committee will meet here Saturday morning to make preparations for a state convention at which delegates to the republican national convention will be elected.

Udvalg I. Roe, chairman, said today that about 50 per cent of the membership signified intentions of attending the Saturday meeting.

RAIN OR SNOW IS PROMISED

St. Paul, Jan. 13.—(U.P.)—Rain or snow is promised for most parts of the state by weather forecasters here, to break the spell of sunshine in which the state basked for the last week. The change is promised for tonight and Saturday.

'SUPERSTITIOUS BUNK' ABOUT 13, SAYS OFFICER

St. Paul, Jan. 13.—(U.P.)—"It's superstitious bunk," Patrolman Oran J. Stutzman said today.

He was born Nov. 13, 1892, commissioned on Jan. 13, 1915, given star No. 13 and completed 13 years of service on the St. Paul police force today—Friday the 13th.

ALSO ROADWAY AND BUILDING IMPROVEMENTS

TWO IMPORTANT BRANCH LINE
PROJECTS TO BE COM-
PLETED

CHARLES DONNELLY, PRESIDENT
OF RAILWAY, MAKES
ANNOUNCEMENT

St. Paul, Minn., Jan. 13.—The Northern Pacific Railway Company in 1928 will expend more than \$44,500,000 for maintenance, roadway, and building improvements, and completion of two important branch line projects, Charles Donnelly, president, announced today.

This sum will be expended as follows:

On roadway and building maintenance—\$13,000,000.

On equipment maintenance—\$17,500,000.

On roadway and building improvements—\$10,000,000.

On new branch line completion—\$2,800,000.

On work carried over from 1927—\$1,200,000.

The roadway improvement figure includes \$1,500,000 for new ballast. The railway company four years ago outlined a washed ballast program for the system. In 1927, 253 miles of ballast were laid, and in 1928 the program calls for 320 miles. Of this 320 miles, 186 miles will be washed ballast. By the end of 1928 there will be on the Northern Pacific system 925 miles of washed ballast, making that portion of the roadway virtually dustless and giving improved riding qualities.

Another important item in the \$10,000,000 roadway and building improvement program will be the laying of new 100 and 130-pound rails on the main line. In 1927, 69.4 miles of this heavier track was laid, while in 1928 the program calls for 125 miles at a cost of \$2,700,000. At the end of 1927 there were on the system 717 miles of this heavier rail and at the end of 1928 this total will be increased to 842 miles, all laid within the last five years.

The railway company will also spend \$300,000 for improvements to its telegraph and telephone lines; \$1,000,000 for grade separations at various points on the system; \$400,000 for freight and passenger buildings and improvements; \$308,000 for improvements to equipment; \$650,000 for bridges; and \$100,000 as the year's proportion of the expense of new water treating systems.

The Northern Pacific in 1927 began construction of two important new branch lines. One of the lines is known as the Redwater branch extending from a point near Glendive, Mont., to Brockway, via Circle, a distance of 62 miles. This line is to tap a large, fertile grain area in eastern Montana. Part of this line now is complete and some grain has been hauled over it. Heavy shovel work is being carried on this winter by a large crew of men. The entire line will be finished in the early summer.

The railway also is relocating 25 miles of its pioneer Bitter Root branch south of Missoula, Mont. Grading is well advanced on this project, the rail will be laid in the spring, and the line will be operating in early summer. The purpose of this relocation is to better serve the farmers in the fertile Bitter Root Valley. In connection with the relocation of this line, announcement was made that a large beet sugar factory is to be constructed at Missoula and a considerable acreage of sugar beets will be available on the relocated line.

It is estimated that the cost of completing the Bitter Root and Redwater lines is about \$2,800,000.

A new line from Orofino to Headquarters, Idaho, a distance of 40 miles, has been completed at a cost of \$4,000,000. This line was built to tap what is called the largest remaining stand of virgin white pine and its construction was regarded

The Northern Pacific bank increases its surplus stock from \$7,500 to \$10,000 and held election of officers at the annual meeting. The same officers were elected again viz: President—Werner Hemstead. Vice President—J. F. McGinnis. Cashier—H. D. Treglawny. Assistant Cashier—J. A. Bachelier.

The change in surplus stock gives the bank a capital stock of \$25,000 with a surplus of \$10,000. The Twentieth Century club gave a very delightful dancing party last night in the Walker hall. There were about twenty couple present. Fred Sanborn is on the sick list these days.

Dr. H. Ribbel left this afternoon for Gowanna, N. Y., called by the very serious illness of a sister.

Miss Mary Chase of Angelus Temple, Los Angeles, delivered the message last night, taking as her subject, "A New World Government," and said in part: "I believe that the only hope of this world is when Jesus comes back again. Before the world war they made a treaty for peace and we thought the nations were in harmony, but the World war proved they were not. Now they are trying to make peace again, but I believe without the Son of God there will be no peace. There are many anarchists in every country. The people in the west are afraid of Japan. Lindbergh is being sent around as a representative of peace and is going the best he can. There is war in many countries, and rumors of war. But I believe the Christians have a brighter day. I am

From the Daily Dispatch

January 13, 1903

The Northern Pacific bank increases its surplus stock from \$7,500 to \$10,000 and held election of officers at the annual meeting. The same officers were elected again viz: President—Werner Hemstead.

Vice President—J. F. McGinnis. Cashier—H. D. Treglawny. Assistant Cashier—J. A. Bachelier.

The change in surplus stock gives the bank a capital stock of \$25,000 with a surplus of \$10,000.

The Twentieth Century club gave a very delightful dancing party last night in the Walker hall. There were about twenty couple present.

Fred Sanborn is on the sick list these days.

Dr. H. Ribbel left this afternoon for Gowanda, N. Y., called by the very serious illness of a sister.

Dr. McDonald left for St. Paul this afternoon where he will attend the state veterinary meeting now in session.

Hon. A. F. Ferris returned from Walker this morning. He and the other Brainerdites who were en route to Cass Lake missed the train at Walker last night.

The Brainerd Teamsters Union have fixed a schedule of prices which will be followed in the near future. Every one is wondering now whether it will be cheaper to pay rent than to move.

CARD OF THANKS

We wish to thank friends and neighbors for their kindness shown us in our bereavement, the death of Carl Nelson, also for the many floral offerings received.

Mrs. Emma Nelson Cronquist, 11p and family.

BRAINERD'S ODDEST STORIES OF TODAY

A caterpillar that couldn't tell the difference between January and April was very much awake today.

There it nestled among the leafless lilac bushes on the snow covered lawn of Mr. and Mrs. Fred Engelhart, South 4th street, when Miss Vera Engelhart found it and decided to take it to the Dispatch and have it reported in Brainerd's oddest stories.

Now prognosticators are of the opinion that this is just one more sign that the winter will be an open one, but it is best to be conservative and write "wait and see."

Friday the 13th

Miss Ethel Lyons, 919 South Seventh street, is celebrating her thirteenth birthday this afternoon and is having thirteen guests at her birthday party.

A baggage check on an article at the depot this afternoon read 2-13-13. With so many thirteens it should reach its destination safely.

FULL GOSPEL ASSEMBLY

Evangelist Morris V. Laudahl of Duluth Will be Speaker—Also Children's Meeting

There will be a children's meeting tonight at 6:45 at the Full Gospel Assembly 1 1/2 A. street, to which all children are invited.

At 7:45 o'clock there will be an old fashioned Gospel meeting with Evangelist Morris V. Laudahl of Duluth as the speaker. There will be a special song service before the preaching service.

Miss Mary Chase of Angelus Temple, Los Angeles, delivered the message last night, taking as her subject, "A New World Government," and said in part: "I believe that the only hope of this world is when Jesus comes back again. Before the world war they made a treaty for peace and we thought the nations were in harmony, but the World war proved they were not. Now they are trying to make peace again, but I believe without the Son of God there will be no peace. There are many anarchists in every country. The people in the west are afraid of Japan. Lindbergh is being sent around as a representative of peace and is going the best he can. There is war in many countries, and rumors of war. But I believe the Christians have a brighter day. I am

The World's war, was just a rehearsal for the next war, which will be more terrible.

"Chicago is almost run by the underworld. The police are helpless. Other cities are just as bad. The crime age is between 15 and 19 years. The juvenile courts are filled. The judges know what the trouble is. The Bible has been taken out of the home and schools. Preachers deny the value of preaching God, but judges and lawyers do not. They say when the Bible is put in schools and homes, then crime will be lessened.

"People deny the resurrection of Christ. I believe that the few people who belong to God are the ones holding back the anti Christ today. The spirit of anti-Christ is here already. We are in the beginning of war. I don't like to tell these things, but it is to draw you closer to Jesus. His coming will be like a magnet. If we're in harmony with God we'll be caught up. Second-hand beauty

THE world is full of women who are beginning to lose the fresh bloom of health. Eagerly, hopefully, they haunt the beauty shops. Trying this. Trying that. Buying beauty by the hour. . . . At best what an empty achievement they attain! Second-hand beauty.

Life could tell a different story if more women knew the part constipation plays in wrecking youth and beauty. If more men but realized how this terrible scourge undermines strength and health. Constipation is at the bottom of many a trouble. The cause of literally dozens of diseases.

And more's the shame when it can be so easily and quickly relieved. Kellogg's ALL-BRAN is guaranteed to bring prompt relief—lasting, safe prevention.

Why "all-bran" is so effective
It is "bulk" that combats constipation. Kellogg's ALL-BRAN is rich in bulk because it is 100% bran. It distributes moisture throughout the intestines—gently exercising them.

Sweeping out poisonous wastes. Part-bran products seldom contain sufficient bulk to do this effectively. That is why doctors recommend Kellogg's ALL-BRAN. Because it is 100% bran.

Better than drugs

Unlike habit-forming pills and laxatives—the quantity of ALL-BRAN you require need never vary. Kellogg's ALL-BRAN works as nature works—naturally. A pleasant, healthful cereal. Isn't that much better than pills or drugs?

Eat with milk or cream—or with fruits or honey added. Use it in cooking too. Sprinkle it into soups. Mix it with other cereals. Just eat two tablespoonfuls daily—chronic cases, with every meal.

Be sure, though, you get genuine Kellogg's ALL-BRAN. Don't risk part-bran substitutes. ALL-BRAN is sold by grocers everywhere. Served at hotels and restaurants. On dining-cars. Made by Kellogg in Battle Creek.

Guaranteed!
Kellogg's ALL-BRAN is sold with this definite guarantee: Eat it according to directions. If it does not relieve constipation safely, we will refund the purchase price.

FRIDAY, JANUARY 13, 1928

"SOMEONE HAS BLUNDERED"

SOME days ago the Brainerd Dispatch alluded to the sinking of the submarine S-4 and expressed the hope that the accident would result in leading to better safety methods to prevent a repetition of such disasters. It called attention to the fact that no eyes had been provided in submarine construction to which a diver could attach a hawser for hoisting.

The contention of the Dispatch is borne out in this quotation from the magazine, "The Independent," in its issue of December 31 which states:

"In the dark tragedy of the sinking of the submarine, S-4, one thing to our minds stands out as verging on culpable neglect. The accident itself was doubtless unavoidable as far as the destroyer, Paulding, was concerned, although there may have been a lack of precaution on the part of the officers of the ill-fated submarine. But to one feature of our submarine construction a very well-founded criticism may be applied, a criticism based on the neglect of a simple, obvious, and potentially vital precaution which was suggested long ago.

Suppose that a submarine is sunk, as were the S-51 and the S-4, through collision, or that for any reason it lies on the ocean floor unable to rise, the rescue units are faced with a most difficult and laborious undertaking. It is necessary for divers to carry chains or hawsers underneath the hull of the submarine, an operation which often involves tunneling through mud or sand or rock in order to get a purchase which will permit either the lifting of the ship or the proper attaching of pontoons. When the S-51 was sunk, many, many days passed in the heartbreaking task of tunneling underneath the ship to accomplish this purpose.

After that tragedy the officer generally regarded as responsible for the ultimate raising of the S-51, Lieut. Commander (as he then was) Edward Ellsberg, recommended that hooks or loops be placed on all submarines through which chains could be passed by divers in the event of accidents. Such hooks in the case of the S-4 which was sunk only a mile offshore in about one hundred feet of water and which rested on the bottom shelving gradually to the shore line might and probably would have made the salvaging of the ship a matter of hours or at most of a few days.

No action, however, was taken on Commander Ellsberg's recommendation, and our submarines have continued on their lawful occasions without a safety device so cheap, so easy, so simple that its omission seems almost criminal. There may be some technical reasons of which we are ignorant why this device cannot be used. If so, the public should know them.

It should know just why all precautions were not taken so that the hideous tragedy of the S-51 should not have been repeated by the S-4. The lingering and awful deaths of brave men imprisoned in iron walls underneath the sea are dreadful enough under any circumstances, but if these deaths could have been avoided, the responsibility is appalling.

We want to know how and why Commander Ellsberg's recommendations were ignored. We want to know who is responsible for the killing of six men who survived the collision which sank the S-4. We call on the Navy Department to publish the facts in the record. And we insist that a failure to do so is evidence of something very unsound, something abject in the administration of the submarine service.

And, by the way, it is the same Commander Edward Ellsberg who sums up the accident of the S-4 as he did the S-51 and who again makes the recommendation for eyes on the submarine, hooks or loops, through which chains can be passed by divers.

How many more submarines will have to find a watery grave before this simple recommendation is utilized?

Evidently such a recommendation must be blue-printed and O. K'd and passed on by a lot of desk men before it gets to the point of being adopted as a safety device. If the loop or hook is not good for war time service, then use it in peace time and remove it in war time. But at least provide safety devices so that the undersea boat will not be a traveling coffin for all concerned.

FALSE AND MALICIOUS

ADMISSION by Mr. Hearst's experts that various signatures in the documents alleged to prove Mexican machinations against the United States are forgeries deprives the entire series of "revelations" of all credit. The allegations of payments to United States senators had previously been conclusively refuted; the experts' scrutiny now leaves not a particle of the documents deserving the slightest credence even on points where there was some plausibility in the content.

Obviously the same sort of scrutiny applied to the documents before publication would have had the same results. Their publication as authentic indictments of Mexican policy is therefore without justification or excuse.

The one admirable thing about the whole transaction is the failure of either official Washington or the general public to get excited over these "revelations." Their publication was so timed as to seem an attempt to prevent the new understanding brought about by the combined efforts of President Coolidge, Ambassador Morrow and Colonel Lindbergh. But even before the showdown forced by the senate, the bomb had proved the veriest dud. No one has been hurt save those responsible for it.—St. Cloud Times.

ALIEN PROPERTY

By a vote of 223 to 26 the House last week passed the so-called Alien Property bill for the settlement of war claims of American and German nationals growing out of the late war.

Nine years have elapsed since the armistice yet little has been done toward restoring alien owned property seized by our government during the war. This is not to our credit, neither have we any cause for pride in the manner in which these trusts were administered by those charged with their administration. Millions of dollars worth of privately owned German property has been stolen and squandered and no one punished. To say the least the history of the Alien Property Custodian's office is a blot upon our reputation for fair and square dealing and we sincerely hope that the day will never come when American owned property abroad will be subjected to similar treatment. We have established a bad and dangerous precedent in this instance.—Wadena Pioneer Journal.

SYNOPSIS

Mickey Grogan, orphaned child of the streets, wins Jeffrey Shore, nearly blind architect, back from desolation by his kindness and cheery outlook on life. Through Mickey Jeffrey meets Winifred Davidson who proposes that he offer to help Alexander Cabel, her employer, in plans for a group of factories he is building. Fearing that his failing eyesight is too great a handicap, Jeffrey is reluctant but finally gives way to the pleadings and encouragement of Winifred and Mickey. Mickey and his playmate, Susan Dale, have left Winifred's apartment, leaving her alone with Jeffrey. Momentarily she expects the arrival of Al Nevers, an unbecomingly admiring whom both she and Mickey despise.

"I know you can," said Winnie, pushing two chairs close to the table. She fixed the electric light so that its rays would help him to see at the best possible advantage, but he complained that he could see only the outline of the square of white under his hand.

Timidly, he started to sketch, only to ruin a line by going over it twice and not joining the edges properly. Desperately straining his eyes, he bent forward, his lips pressed tightly together.

Her hand covered his gently. "I'll help you, Jeff."

As her hand covered his he lost the thought that had been in his mind. He was thinking that there could not be another woman in the world half so generous, so kind. The touch of her hand was the first kindness a woman had

ghost-like echoes. Susan's eyes were stretched wide with fear and sadness. This had been the only home she had ever known. Only this afternoon she had left its familiarity with the feeling that she would only have to return and her roof would be over her head. She had grown accustomed to its stuffy, worn furniture, its fly-specked ceilings and creaking floors. The scoldings and curses of Mrs. Murlidorfer had been so habitual that Susan had grown accustomed to them as a sort of kindly greeting in her ears. Mr. Murlidorfer with his red flannel underwear and his cans of beer, had been the only father she had ever known. She would miss the sight of him, rocking in his chair of evening, a newspaper over his head to keep off the flies. All the numerous Murlidorfer children had made it obvious to Susan that they considered her an outsider; yet she would miss them. All these familiar sensations and sights and smells—how quickly they had vanished to be succeeded only by a cold emptiness. Now, more than ever before, Susan felt her loneliness as an icy weight on her heart.

"Mrs. Murlidorfer!" she called in a shrill, piteous voice. "Oh, Mrs. Murlidorfer!" And Mickey joined in her cries, but the only answers were the echoes that bounded off the walls and crashed at their small feet.

A fat Jewish woman who lived in the neighboring tenement heard the children and came forth to ask them what they wanted.

"I was livin' here with Mrs. Murlidorfer," said Susan. She tried to

"Let me guide your hand, Jeff."

shown him in many years. His mind went back to two other women he had known years before. One of them had been his mother who had worked so that he might go through college. His father had been a wealthy man who had lost through numerous ill-advised speculations; and when he had died, he had left nothing for his wife and son to go on with. But Jeffrey's mother had been the brave, indomitable sort, and she would not hear of her son giving up his architectural ambitions. "I'll work and see you through," she had said, and he had gone to college to please her. And she had lived long enough to see him graduate and enter an architectural firm.

The other woman had been shallow, leading him on in the belief that she loved him, only to crush him with the news that she had unexpectedly married another. Jeffrey dated his downfall from that time. A few weeks after his eyes had begun to fail, and one terrible day the firm in which he had been employed had discharged him with the usual regrets. Jeffrey had walked out of his office almost totally blind. His mother was dead, and the girl he had loved was married to another. He had no money and was going blind! After several weeks of tortuous drifting, he had found Mickey in the soup line.

"Let me guide your hand, Jeff," said Winifred.

He looked up with a twisted little smile that hurt the girl, it was so hopelessly brave. "It's hard going when you can't see the lines—but if you'll tell me when I make a mistake—"

"How clever your hands are!" she said encouragingly. He bent over the paper and she kept her hand on his own so that the lines and angles would be true.

Down the street, Mickey and Susan were making their way homewards. No one could have guessed that these two, so recently estranged, had been on the point of coming to blows. Now they were absolutely in each other's confidence, as intimate as it is possible for two children to be. But at the end of their journey, a shock awaited them.

The room which had, in its way, sheltered Susan, was empty and deserted. Mrs. Murlidorfer was gone. The Murlidorfer children were gone. The Murlidorfer furniture had vanished. Not a word or sign was left to give a clue to the reason for their departure, or a suggestion as to where they had gone. Stunned and silent, Susan wandered into the hall and Mickey trotted at her side. There was a terrible vacancy everywhere, a hollowness of the sort that clings to empty, deserted houses. Susan and Mickey raised their voices and shouted, and their voices came back to them again, depressing,

give the impression that she was one of those children who live properly in houses, surrounded by those who love them. "But everybody is gone—" said Susan. "Please, where did they go, so's I kin find 'em again?"

"Oh, I see!" nodded the Jewish woman. "You was livin' here mit dem. Vail, what do you think happened? I'm busy in my kitchen, making sopper ven I see de landlord come mit a policeman. Soch a landlord! Better he vas in chail as out! 'Geeve me mine monies!' he makes a holler on Mrs. Murlidorfer. 'Eef you don't geeve me, mine rent, out you go!' Vail?" And the Jewish lady paused dramatically in her recital. "Vat do you think happened, nu? Mrs. Murlidorfer she don't have the money for the rent and the policeman makes her to sack up all de furniture. 'Queek!' says de policeman. 'Ont on de sidewalk mit dee furniture!' Oh! Soch a crying Mrs. Murlidorfer did make, you could hear it vay op in my kitchen yet. And Mr. Murlidorfer, right away he wants to fight mit de landlord and de policeman. And, say, can you blame him? Ven a man wants to take away your home, can you blame him for making a geschrei?"

"But where did Mrs. Murlidorfer go?" asked Susan pathetically. "Didn't she say anything about me? Me, her Susan?"

"Dat I don't know," replied the Jewish woman, shrugging her shoulders. "I only know dat some relations. 'It's hard going when you can't see the lines—but if you'll tell me when I make a mistake—'"

"No, I don't," stammered Susan. "I didn't even know they had any relations."

"And dat's all," said the Jewish lady moving away.

Mickey and Susan were alone again in the empty house. Suddenly, the little girl turned her head to the wall and began to cry. Mickey went up to her and patted her awkwardly. "Aw, Susie, don't cry," he soothed her. "Whatcho care, huh? Ya got me. Ain't we 'naged'?"

"I guess they was glad to git red on me, anyhow," sobbed Susan. "It ain't like I belonged to them." Her sobs grew louder. "I don't guess I'll long to anybody."

"Whatcha sayin', Susie? Ain't cha got me?" asked Mickey, leading her outside. She sat down on the steps dropping her chin in tightly cupped hands, the tears streaming down her face. Mickey lowered himself beside her. "Don't cry, Susie. Gee, if ya don't stop ya'll have me doin' it, too."

"Now I wonder where'll I go?" asked Susan brokenly.

The boy reached out and squeezed her arm re-assuredly. "Don't cha worry. I'll take care o' ya."

A word from the publisher ... about advertising

The products you see consistently advertised in this paper are worthy of your confidence.

It takes two things to make a consistent advertiser. One is a strong conviction that he has a product that will hold its place in public favor despite competition. The other is actual proof of that . . . the increasing popularity of his product.

If his product will not stand the test of comparison he would simply be throwing his advertising investment away. If the buying public rejects his product after it has been offered in advertising he has thrown his advertising investment away.

That's why the manufacturer who advertises his merchandise consistently is very sure of his quality . . . and why you may be sure of it, too.

Read the advertising here in your newspaper . . . it will guide you to the buying of worthy merchandise

"SOMEONE HAS BLUNDERED"

SOME days ago the Brainerd Dispatch alluded to the sinking of the submarine S-4 and expressed the hope that the accident would result in leading to better safety methods to prevent a repetition of such disasters. It called attention to the fact that no eyes had been provided in submarine construction to which a diver could attach a hawser for hoisting.

The contention of the Dispatch is borne out in this quotation from the magazine, "The Independent," in its issue of December 31 which states:

"In the dark tragedy of the sinking of the submarine, S-4, one thing to our minds stands out as verging on culpable neglect. The accident itself was doubtless unavoidable as far as the destroyer, Paulding, was concerned, although there may have been a lack of precaution on the part of the officers of the ill-fated submarine. But to one feature of our submarine construction a very well-founded criticism may be applied, a criticism based on the neglect of a simple, obvious, and potentially vital precaution which was suggested long ago.

Suppose that a submarine is sunk, as were the S-51 and the S-4, through collision, or that for any reason it lies on the ocean floor unable to rise, the rescue units are faced with a most difficult and laborious undertaking. It is necessary for divers to carry chains or hawsers underneath the hull of the submarine, an operation which often involves tunneling through mud or sand or rock in order to get a purchase which will permit either the lifting of the ship or the proper attaching of pontoons. When the S-51 was sunk, many, many days passed in the heartbreaking task of tunneling underneath the ship to accomplish this purpose.

After that tragedy the officer generally regarded as responsible for the ultimate raising of the S-51, Lieut. Commander (as he then was) Edward Ellsberg, recommended that hooks or loops be placed on all submarines through which chains could be passed by divers in the event of accidents. Such hooks in the case of the S-4 which was sunk only a mile offshore in about one hundred feet of water and which rested on the bottom shelving gradually to the shore line might and probably would have made the salvaging of the ship a matter of hours or at most of a few days.

No action, however, was taken on Commander Ellsberg's recommendation, and our submarines have continued on their lawful occasions without a safety device so cheap, so easy, so simple that its omission seems almost criminal. There may be some technical reasons of which we are ignorant why this device cannot be used. If so, the public should know them.

It should know just why all precautions were not taken so that the hideous tragedy of the S-51 should not have been repeated by the S-4. The lingering and awful deaths of brave men imprisoned in iron walls underneath the sea are dreadful enough under any circumstances, but if these deaths could have been avoided, the responsibility is appalling.

We want to know how and why Commander Ellsberg's recommendations were ignored. We want to know who is responsible for the killing of six men who survived the collision which sank the S-4. We call on the Navy Department to publish the facts in the record. And we insist that a failure to do so is evidence of something very unsound, something abject in the administration of the submarine service."

And, by the way, it is the same Commander Edward Ellsberg who sums up the accident of the S-4 as he did the S-51 and who again makes the recommendation for eyes on the submarine, hooks or loops, through which chains can be passed by divers.

How many more submarines will have to find a watery grave before this simple recommendation is utilized?

Evidently such a recommendation must be blue-printed and O. K'd and passed on by a lot of desk men before it gets to the point of being adopted as a safety device. If the loop or hook is not good for war time service, then use it in peace time and remove it in war time. But at least provide safety devices so that the undersea boat will not be a traveling coffin for all concerned.

... about advertising

The products you see consistently advertised in this paper are worthy of your confidence.

It takes two things to make a consistent advertiser. One is a strong conviction that he has a product that will hold its place in public favor despite competition. The other is actual proof of that . . . the increasing popularity of his product.

If his product will not stand the test of comparison he would simply be throwing his advertising investment away. If the buying public rejects his product after it has been offered in advertising he has thrown his advertising investment away.

That's why the manufacturer who advertises his merchandise consistently is very sure of his quality . . . and why you may be sure of it, too.

Read the advertising here in your newspaper . . . it will guide you to the buying of worthy merchandise

SHARKEY TO BATTLE TOM HEENEY AT GARDEN TONIGHT

EX-GOB IS FAVORITE TO WIN FIGHT

ODDS NOW GIVEN AS 2 TO 1 ON SHARKEY IN NEW YORK BETS

SHARKEY ISN'T FACING ANY SET-UP IN TONIGHT'S FRACAS

By FRANK GETTY
(United Press Staff Correspondent)
New York, Jan. 13. — With a chance of Gene Tunney's heavy-weight title awaiting him if he wins, Jack Sharkey of Boston will meet Tom Heenev, a rugged oak from Gisborne, New Zealand, in a scheduled 12-round bout at Madison Square Garden tonight.

Only an unexpected reversal will prevent Sharkey from facing Tunney in the first championship bout of the summer at Yankee stadium in July. The ex-gob is an overwhelming favorite to win.

The odds are 2 to 1 on Sharkey and from what you read and hear Tom Heenev is without a chance.

Sharkey had his big chance once before and failed. The Lithuanian went out to beat up Jack Dempsey at Yankee Stadium last summer, instead of trying to box him as he was told. He was knocked out.

Fair or foul—Sharkey went down in a heap protesting Dempsey's low punches, but the Bostonian has done nothing since to convince the public that he is a first-class fighter.

An injury to Sharkey's left hand, doubt over his physical condition and his secret methods of training for this bout have only served to aid his cause.

Sharkey isn't facing any set-up tonight.

Heenev was once a blacksmith and he's just as tough as they come. He's never been knocked out, and he's only been off his feet a few times. He's not much on skill, boxing, ring craft and that sort of thing, but once in the ring he'll be swinging two heavily-loaded fists every minute.

The tale is whispered about that Sharkey hasn't a fighting heart and will curl up under fire. Certainly the man who whipped Harry Willis and George Godfrey when no one else was willing to take them on isn't afraid of any fighter.

Nevertheless, it is pointed out that Dempsey's body punches revealed Sharkey's true color and that another such body punishment will just about finish the ring career of one of the leading contenders.

And Heenev is prepared to launch a savage attack on Sharkey's mid-section. Heenev's handlers have been drilling it into him day after day to go after Sharkey's body.

Should the unexpected happen and Heenev win, it is doubtful if he would get a chance at Tunney without another test match. A Dempsey-Heenev bout in London has been suggested.

NUTTING, WELSH AND BECK ACCOUNT FOR THE "Y" BASKETS

The fast Company "B" basketball team of Aitkin defeated the Y. M. C. A. team of Brainerd at the Aitkin Armory last night by a score of 38 to 26. The game was fast and thrilling throughout. The local boys had difficulty in the first half getting started and the score at the end of the period was 21-8 for Aitkin.

During the second half, however, the "Y" found their eye for the hoop, and displayed a good brand of team work, working the ball up to their opponents' basket for short counters time and again.

The game last night marked the initial appearance of Bill Zakariasen, former B. H. S. and Carleton star, who has recently joined the "Y" Cagers. "Zak" played a strong game at center and guard showing all of his former skill on the defensive besides getting a total of six points. Nutting, Welsh and Beck also played a good offensive game, scoring sixteen points between them.

For Aitkin, G. Smith led the scoring with 12 points, with Hassman, E. Miller and E. Smith contributing six each.

Lowe of Brainerd handled the refereeing assignment very creditably.

CONFERENCE CLASH AT B. H. S. TO BE BATTLE OF SEASON

The Brainerd high school will have three basketball games with Crosby-Itanton tonight.

The most important of the three will be played at the local gymnasium when the first squad of the C.-I. high school meets Kasch's first string men in an important conference clash. The game will start at 8 P. M. sharp without any preliminary.

The other two games will be played on the Crosby-Itanton floor. Brainerd's second squad will meet the second squad of the range and the girls of the B. H. S. meet the C.-I. girls.

Coach Warren Kasch announced his line-up tonight here as follows: forwards, Wise, Swanson; center, Guin; guards, Fuller and Welliver; subs, Hautala, Purdy, Barnes and LaCourse.

The following men will be seen in action tonight when the C.-I. first string men take to the floor here: Wickstrom, Krueger, Smart, forwards; Butora, Chupich, center; Pomeroy, Satovich and Krueger, guards.

Adams of St. Cloud will handle the whistle.

Tonight's game will possibly be the most exciting home game of the season as it will be a conference clash. It will give the local fans an idea of the strength of the range players.

RUTH WOULD BE BABY FOR BOBBY

Veteran of Cincinnati Reds Was First Southpaw.

American league baseball pitchers may fear the mighty left of George Herman Ruth, but in the opinion of a seventy-one-year-old veteran of the diamond, the Sultan of Swat would be "senior pickings" for "Bobby" Mitchell. "If I were pitching today, Babe Ruth would never make a home run off me," is the boast of Mitchell, a member of the Cincinnati Reds in 1877, who is said to be the first left-handed pitcher in the history of baseball.

"The pitchers of today don't pitch," said Mitchell; "they throw."

"They throw fast low balls to Ruth. If I were pitching I'd give him slow balls. I don't say I'd strike him out but he'd never hit a homer off me."

Fifty years ago "Bobby" Mitchell was a big league hero. With George Miller, he formed what was nationally idolized as the "pony battery." The "pony battery"—two slim lads of 20 summers—broke into baseball fame with the Reds in 1878. Shutout victories over the Boston Red Sox and Chicago White Stockings endeared them to the hearts of the fans and brought offers of the then fabulous salary of \$1,200. Whenever one member of the "pony battery" was given an offer he promptly turned it down unless the same amount was offered his partner. Mitchell and Miller played with the Reds, Springfield, Ohio, Cleveland and Hamilton (Ohio) teams.

Mitchell left baseball in the late '70s because of a contract litigation. He became an engineer.

"Bobby" Mitchell, old and forgotten, laughs today at the new baseball and the new heroes.

"Their gloves are so big they can't miss catching the ball," he scoffed. "We used our bare hands and we really caught the balls. Today the glove catches them."

"In the old days a pitcher was required to toss the ball where the batter requested it. Today they pitch as they want. And even then one fellow can make 60 home runs in a season."

The "only difference between baseball today and the game played 50 years ago" is summed up by "Bobby" in terse tones.

"We played baseball," he says.

Dazzy Vance Plays Golf as Well as Hurl Ball

"Dazzy" Vance, famous Brooklyn pitcher and strikeout artist of the National league, may be a wizard in propelling a baseball and fooling the unsuspecting batter, but he also knows quite a little about propelling a golf ball around a golf course and incidentally fooling Old Man Par.

"Dazzy" and his barnstorming partner, Grover Cleveland Alexander, blew into Denver and gave more than 2,000 fans an exhibition that they will remember for some time. Few people suspect when they see Vance on the pitcher's mound that he is equally at home on the tee and green.

John Fike of the Cherry Hills club took Vance out to his club for a turn and although Fike kept the invader on the short end of the score, it was only after a valiant effort on the incoming line. For the Dodger twirler held him even on the first nine, each taking thirty-eight strokes. Vance, we must remember, was on the Cherry Hills links for the first time, while Fike was at home. Coming in Fike did another 38 while Vance had 42. Fike won 3 and 2.

Will Increase Seating Capacity of Stadium

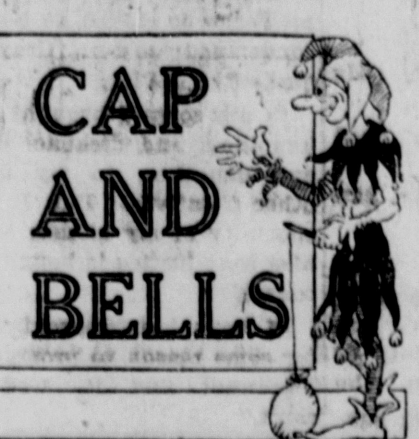

The seating capacity of the Yankee stadium for football purposes next year will be increased to 85,000, it was announced by Ed Darrow, business manager of the Yankees.

The additions to the permanent stands will be finished in time for the opening baseball game of 1928, while the enlargement of the temporary football stands will be ready before the first gridiron contest next fall.

The additional seats will be erected on the left field side of the park. The mezzanine upper stand will be extended seven sections, while the temporary stands for football will be increased by more than 2,500. The right-field boxes will be removed to permit 3,000 additional seats, making a total of 15,000 extra seats.

UNDERTAKERS CARRY AWAY THE BODIES

Ossining, N. Y., Jan. 13.—Before daylight today undertakers' wagons came to Sing Sing prison here and carried away the bodies of Henry Judd Gray and Ruth Brown Snyder, electrocuted last night.

Gray's body, claimed by his mother, was taken to East Orange, N. J. Plans for burial remained indefinite but the funeral probably will be tomorrow.

Mrs. Snyder's corpse, claimed by her mother, was taken to an undertaking parlor in the Bronx, New York.

Before the bodies were taken from the prison an autopsy was performed.

The surgeons reported they found the brains of both normal but that their examination revealed "an abnormal gland" in the back of Mrs. Snyder's neck.

East Orange, N. J., Jan. 13.—Judd Gray, electrocuted with Mrs. Ruth Snyder last night at Sing Sing prison, will be given his funeral and burial today.

Funeral services will be held at the Colonial funeral home here, where the body now rests and burial will be in Rosedale cemetery.

DEATH AFTER HOURS OF NUMBING TORTURE

By PAUL W. WHITE
(United Press Staff Correspondent)

Ossining, N. Y., Jan. 13.—(UP)—Death, the last gesture of all mortals, came to Ruth Snyder and Judd Gray after they had endured a day and an evening of numbing torture.

Pain, with the knowledge that life was to be stilled at a specified time in a specified place, bore in upon the two as the hour approached for their appearance in the electric chair.

They reacted differently. Ruth Snyder, volatile, knew extremes of emotion. Now self-possessed; now crying silently; now screaming only to sink back dejectedly upon her cot.

But Gray was more contained. With the same resignation he displayed on the witness stand when he told how he and his sweetheart had put to death Albert Snyder, he sat quietly for the most part. Occasionally, he would arise and restlessly walk about his narrow cell.

Albert Snyder awoke early one morning and in a few fleeting seconds knew his life was in danger. Then unconsciousness came. But his wife and her lover have known for months that death was their forfeit. In the last hours the torment of realization was intensified.

Visitors to the two cells came away trembling. They had seen two persons who soon would be dead.

When yesterday dawned there was yet hope. Supreme Justice Levy, 30 miles away in New York City, had granted a stay of execution in connection with a pending insurance case.

A chance remained and so Mrs. Snyder was ready to lend herself to optimism. To some of the guards she said, "what's the use of all that?" but to others she said, "they'll find a way out, somehow."

Mrs. Josephine Brown, mother of Mrs. Snyder, came to the prison with her son, Andrew. Mrs. Brown was a broken woman; ill with the weight of her tragedy.

Mrs. Margaret Gray came to see her boy, Judd. With her was his sister, Mrs. Harold Logan. They came not to give hope but to assure Judd Gray of compassion and forgiveness.

As the sun sank behind the pali-

sades in the west, word came that all legal obstacles to the execution had been removed.

Last minute legal maneuvering had failed. In New York there had been a hurried round of attempts to save the two. Attorneys appeared before Federal Judge Goddard in New York and asked for a writ of habeas corpus to stay the execution. The attempts failed.

Justice Levy, after hearing arguments, vacated his own stay.

Lewis E. Lawes, the warden told Gray:

"I expected nothing more," the prisoner sighed.

"It is God's will."

In his hand he held a bible. He prayed over it, silently.

John J. Sheehy, the burly head keeper, notified Mrs. Snyder.

"Is there nothing anybody can do?" she asked.

Then she cried.

Mrs. Snyder had not been permitted to order the dishes on her last meal because of the uncertainty of court procedures throughout the day. But she was served with sub-

stantially the same menu as that written out by Gray. It follows:

Chicken soup; roast chicken, mashed potatoes, celery, stuffed olives. Ice cream. "Good" coffee.

Gray also was permitted the luxury of a cigar. He enjoyed his meal but Mrs. Snyder let it grow cold as she contemplated the fate just ahead.

One of the first evening callers on Gray was Harold Logan, his brother-in-law. Logan said Gray was calm outwardly but at times, too moved for speech, aimlessly paced back and forth.

Then came Samuel L. Miller, his lawyer, who stayed an hour with the condemned man. Gray said, as quoted by Miller:

"I am sorry I brought lasting unhappiness and dishonor to my wife and daughter, to my mother and other relatives. But I realize the enormity of my offense and I recognize that justice is bound to take its course."

"I have been searching my mind for some reason to prompt my crime. I cannot find it. God knows I can't."

A few minutes before the end, the Rev. Anthony Peterson, Protestant chaplain of the prison, was with Gray. The chaplain read passages from the bible and the prisoner gripped his visitor's hands for strength.

Three lawyers came to the cell where Mrs. Snyder awaited. She said to Edgar Hazleton and Dana F. Wallace:

"Tell them that I die with malice toward none. Tell them I want all to know that I forgive any criticism they have made of me."

A few minutes later she said to Joseph Leonardo:

"I only hope that the life I am giving up now will serve as a warning to the rest of the world."

"How do you feel toward Judd?" Leonardo asked.

"Well, we sinned together and I guess we'll go—God knows where."

"What do you hope for your child?"

"If I were to live over again, I would want to be what I want my child to be—a good girl and really making the fear of God that I have

learned lately lead me to a straight life."

Mrs. Snyder made her last confession to Father George Murphy chaplain of the Queens county jail, who led her into Catholicism.

When he left her she was calm, the priest said.

Soon all the visitors were banished to the outside walls, where a crowd of close to 800 gathered. The powerful searchlights atop the towers were battling the thin mist that arose from the Hudson and settled over the prison as an eerie veil.

The curious stood about and laughed. A little nervously.

But soon it was 11 o'clock and everyone knew what was happening back inside the Sing Sing death house, a silence fell over the crowd.

Miller and Leonardo took off their hats and they prayed.

But the lawyers were not alone in their appeals to God. There were others in that small circle of humanity that had come to experience a vicarious, morbid thrill who sank to their knees and prayed for the souls of Ruth Snyder and Judd Gray.

NUMBER OF CUTTERS FAILED TO REPORT

Forest Ranger E. H. Rhodes Reports Prosecution of Those Violating Laws

REQUESTS COOPERATION

Cutting Without Permission of the Property Owner Constitutes Trespass

Local Forest Ranger E. H. Rhodes states that he still finds a large number of timber cutters who have failed to make written report of their cutting to the state forester, old Capitol building St. Paul, Minn., by registered letter, as required by Section 18, Chapter 407, of the state forest laws and he has been compelled to prosecute several persons on this charge, during the past two weeks and more prosecutions are to follow shortly.

Mr. Rhodes writes: "We find too, that there are some who go out and cut timber haphazardly, without first even obtaining permission of the property owner, which constitutes trespass."

"A few years ago if it was almost impossible for the private individual to obtain a conviction for timber trespass but of recent years, especially since the forest laws were re-codified in 1925 and made more stringent, the State Forestry department will fix the responsibility of the cutting, which leaves a clear case for the landowner to collect on the trespass. Then too, with the wholehearted support which is now given us by our county attorneys, sheriff, state and county officials, as well as the co-operation and backing of the general public, the man who continues the practice of timber trespass will come to the same end as the horse thief, bank robber or any other criminal and it is the hope of our department to make investments in timberlands as safe as investments in any other property."

"Timber slashings and the fire hazards are another problem which is working out more satisfactorily each year, since the state law made it a misdemeanor, punishable by fine or imprisonment, where slashings are not piled as cutting proceeds. Then, any burning which might be required by the local ranger, as a further safeguard against destructive fires, is always ordered to be done after four or five o'clock about the middle of June, while vegetation is green and fires will not spread or after the first light snow in November."

"The very closest co-operation of the public, in enforcing the above mentioned requirements, will be appreciated."

EXPLAINS AIMS OF D. A. R. WORK

Mrs. W. H. Hoyt of Duluth, State Regent Addresses Samuel Huntington Chapter

AMERICANIZATION STRESSED

Chapter Votes \$25 Toward Completion of Non-Sectarian Chapel at Ft. Snelling

Samuel Huntington Chapter D. A. R. met at the home of Mrs. F. W. Wieland on Tuesday with the state regent, Mrs. W. H. Hoyt of Duluth as special guest.

She spoke of the outstanding aims of D. A. R. work as impressed upon the state officers by the National society.

One of these is Americanization of the foreign-born, in which the city of Brainerd takes an active part through its night schools.

Another line of D. A. R. work is constant vigilance in defence of fundamental American institutions and assisting in any form as called for by the National society in combating dangerous radicalism.

Mrs. Hoyt told of different kinds of work being done by some especially active though not necessarily large chapters.

The chapter voted \$25 toward the completion of a non-sectarian chapel being erected at Ft. Snelling.

Reason for Popularity

The Norway spruce, a favorite species for Christmas tree purposes, has been cultivated in the United States since early Colonial times.

Mr. Rhodes writes: "We find too, that there are some who go out and cut timber haphazardly, without first even obtaining permission of the property owner, which constitutes trespass.

"A few years ago it was almost impossible for the private individual to obtain a conviction for timber trespass but of recent years, especially since the forest laws were re-codified in 1925 and made more stringent, the State Forestry department will fix the responsibility of the cutting, which leaves a clear case for the landowner to collect on the trespass. Then too, with the wholehearted support which is now given us by our county attorneys, sheriff, state and county officials, as well as the co-operation and backing of the general public, the man who continues the practice of timber trespass will come to the same end as the horse thief, bank robber or any other criminal and it is the hope of our department to make investments in timberlands as safe as investments in any other property.

"Timber slashings and the fire hazards are another problem which is working out more satisfactorily each year, since the state law made it a misdemeanor, punishable by fine or imprisonment, where slashings are not piled as cutting proceeds. Then, any burning which might be required by the local ranger, as a further safeguard against destructive fires, is always ordered to be done after four or five o'clock about the middle of June, while vegetation is green and fires will not spread or after the first light snow in November.

"The very closest co-operation of the public, in enforcing the above mentioned requirements, will be appreciated."

EXPLAINS AIMS OF D. A. R. WORK

Mrs. W. H. Hoyt of Duluth, State Regent Addresses Samuel Huntington Chapter

AMERICANIZATION STRESSED

Chapter Votes \$25 Toward Completion of Non-Sectarian Chapel at Ft. Snelling

Samuel Huntington Chapter D. A. R. met at the home of Mrs. F. W. Wieland on Tuesday with the state regent, Mrs. W. H. Hoyt of Duluth as special guest.

She spoke of the outstanding aims of D. A. R. work as impressed upon the state officers by the National society.

One of these is Americanization of the foreign-born, in which the city of Brainerd takes an active part through its night schools.

Another line of D. A. R. work is constant vigilance in defence of fundamental American institutions and assisting in any form as called for by the National society in combating dangerous radicalism.

Mrs. Hoyt told of different kinds of work being done by some especially active though not necessarily large chapters.

The chapter voted \$25 toward the completion of a non-sectarian chapel being erected at Ft. Snelling.

SLAYER OF SIX YEAR OLD GIRL HUNTED IN WEST

(Continued from page 1)

scattered around a log in a deep ravine.

Archie Brown, a farmer, near whose farm the body was found, claimed to have seen the kidnaper-slayer carry the girl across one of his fields.

Flint, Mich., Jan. 13.—(UP)—An aroused citizenry joined with forces of the law today to apprehend the kidnaper and slayer of Dorothy Schneider, 5 years old.

Dorothy, blonde kindergarten pupil in the suburban Mount Morris consolidated school, was lured into an automobile yesterday, driven out of the city and murdered.

Her body was found last evening in Benson creek, three miles west of her home. It had been mutilated by incisions that might have been made by a skilled surgeon. The clothing had been stripped from her body and scattered through a ravine.

Although it was reported that the murder had been committed with a butcher knife, perhaps by a maniac, an autopsy revealed that the incisions were the work of a practiced hand.

Today, heavily-armed posses, in which private citizens advanced shoulder to shoulder with state troopers, county sheriffs and city police, spread in all directions from the scene of the crime.

So great was the city's revulsion at the atrocious crime that many of the search parties were private ventures, organized and led by professional men, merchants and workers from Flint's automobile factories.

Clubwomen viewed Dorothy's body and several told Sheriff Green that they would be willing to aid in the execution of the men responsible.

The killer would escape death even though captured and convicted. Capital punishment was outlawed in Michigan years ago.

The best clue to the identity of the wanted man was furnished by Archie Bacon, a farmer, who lives near the spot where the body was found and who assisted the suspected man to get his car out of a mud-hole after he had disposed of the body.

COLLEGE PRESIDENT RECEIVES GIFT

Minneapolis, Jan. 13.—The students, alumni, and friends of Augsburg College, Minneapolis, recently gave their president, Prof. George Sverdrup, a gift of money for the purpose of purchasing an automobile. Prof. Sverdrup has been president of the school for sixteen years, succeeding his father. During his administration the school enrollment has doubled, the faculty has been increased, and several new departments added. The gift is an indication of the high esteem in which Prof. Sverdrup is held by the students and friends of the school.

Night Coughs Quickly Relieved
Most coughing is caused by an irritated, inflamed throat or bronchial tubes which cough syrups and patent medicines do not touch. But a famous physician's prescription recently discovered called Thoxine goes direct to the cause, relieves the inflamed membranes and stops the cough almost instantly. One swallow does the work, and the remarkable thing about it is that it contains no dope, chloroform or other harmful drugs. Pleasant tasting. Safe for children. Once used the whole family will rely on it. 35c, 60c and \$1.00. Sold by Skague Drug Co. and all good drug stores. —Advt

SLAYER OF SIX YEAR OLD GIRL HUNTED IN WEST

(Continued from page 1)

scattered around a log in a deep ravine.

Archie Brown, a farmer, near whose farm the body was found, claimed to have seen the kidnaper-slayer carry the girl across one of his fields.

Flint, Mich., Jan. 13.—(U.P.)—An aroused citizenry joined with forces of the law today to apprehend the kidnaper and slayer of Dorothy Schneider, 5 years old.

Dorothy, blonde kindergarten pupil in the suburban Mount Morris consolidated school, was lured into an automobile yesterday, driven out of the city and murdered.

Her body was found last evening in Benson creek, three miles west of her home. It had been mutilated by incisions that might have been made by a skilled surgeon. The clothing had been stripped from her body and scattered through a ravine.

Although it was reported that the murder had been committed with a butcher knife, perhaps by a maniac, an autopsy revealed that the incisions were the work of a practiced hand.

Today, heavily-armed posses, in which private citizens advanced shoulder to shoulder with state troopers, county sheriffs and city police, spread in all directions from the scene of the crime.

So great was the city's revulsion at the atrocious crime that many of the search parties were private ventures, organized and led by professional men, merchants and workers from Flint's automobile factories.

Clubwomen viewed Dorothy's body and several told Sheriff Green that they would be willing to aid in the execution of the men responsible.

The killer would escape death even though captured and convicted. Capital punishment was outlawed in Michigan years ago.

The best clue to the identity of the wanted man was furnished by Archie Bacon a farmer, who lives near the spot where the body was found and who assisted the suspected man to get his car out of a mud-hole after he had disposed of the body.

ROADS ONLY FAIR DUE TO THAW

Due to the January thaw, many of the Minnesota trunk highways are shown as only fair, in the weekly condition report issued by the State Highway department today. As long as thawing continues, many of the routes are somewhat sloppy during the day time, and become rough when it freezes. All have solid bottom and offer good going, but motorists are cautioned to go
